

PASSION FUR **Scarf** **(Knit and Crochet)**

Needles & Hook: Size 7 needle,
Size J Hook

Knit Scarf - Heavily ruffled version
Length: about 48"

1. Fold the ending piece over about 4" (or several track holes). The original cast on sts will go through both thicknesses.
2. Cast on 3 sts by sticking needle through the top edge of the netting portion, picking up next 3 track holes. Work from right to left.
3. Turn the needle.
4. Insert the needle in to the most left hand st, pull next track hole through to create a new st, do not drop original st off the needle. Insert needle into middle st, pull next track hole through to create a new st, do not drop original st off

of the needle. Insert needle into the most right hand st, pull next track hole through to create a new st, do not drop original st off of the needle.

5. Now there are 3 sts on each needle. Let the original 3 sts drop off of the needle.
6. Turn needle and repeat steps 4 & 5.
7. Continue repeating steps 4 & 5 until most of skein is used. At the end, fold over the last piece (about 4" or several track holes) for the final set of sts so you will knit through both thicknesses. Without turning, bind off just before the end - pulling the middle st over the left hand st, then the right most st over the remaining one. Use a small piece of scrap yarn to anchor the last st in place so it will not unravel.

Longer, less ruffled version:

Length: about 65”.

Work as for the shorter version, casting on and working 2 sts instead of 3 sts.

Crochet Scarf

Length: About 50”. You may make 2 scarves of this length from one hank of Passion Fur.

1. Fold the ending piece over about 4” (or about 4 track holes). The first sts will go through both thicknesses.
2. Loop over crochet hook. Go out 2 trackholes and loop over crochet hook again. Repeat for a 3rd loop on the hook. Pull the 3rd loop through the second loop, then the second loop through the 1st loop. Only 1 loop is on the hook now.
3. Go out 2 track holes and loop over crochet hook again. Repeat for a 3rd loop on the hook. Pull the 3rd loop through the second loop, then the second loop through the 1st loop.
4. Repeat step 3 until desired length. At end, fold over last 4” (or 4 track holes) and work through both thicknesses. When final loop is left on needle, Use a small piece of yarn to anchor the last loop in place so it will not unravel.
