

PASSION NETTE

Scarf

Needles Size: Size 10 needle

Knit Scarf

Length: about 48"

1. Spread open mesh. Turn sideways.
2. Cast on 8 sts by sticking needle through the top edge of the netting from right to left.
3. Turn the needle.
4. Knit through the top edge mesh, approximately every inch.
5. Knit every row. At the end, fold the last piece (about 4") over for the final set of sts so you will knit through both thicknesses. Without turning, bind off just before the end.
6. Use a small piece of yarn to anchor the last st in place so it will not unravel.
